

One Humankind
By David K. North

Verse- Solo

We have come so far, and we have grown
There are many seeds that we have sown
 For peace, hope, love, and unity.
There is so much more that we must do,
Many barriers yet to break through.
 Still so many eyes that do not see.

Chorus

Giving is the answer, sharing is the way
Recognize God in the eyes of the people around you,
It will astound you.
Love will bring us together; true and real peace we will find
When we open our mind to one humankind.

Repeat Verse- Duet

Chorus- Choir

Giving is the answer, sharing is the way
Recognize God in the eyes of the people around you,
It will astound you.
Love will bring us together; true *(and real) peace we will find [*sopranos only]
When we open our mind to one humankind.

Bridge- Choir

Our dream, our goal, our aim
Our mission in God's name
We're different, yet the same
 One family.

Final Chorus

Giving is the answer, sharing is the way
Recognize God in the eyes of the people around you,
It will astound you.
Love will bring us together; true *(and real) peace we will find [*sopranos only]
When we open our mind
When we open our mind
When we open our mind to one humankind.
